

Certificate of Origin

About ParceLive

Model No.: HY000002-00

Trackers are part of Hanhaa's real time parcel tracking service ParceLive. Trackers report back on 7 data points of the parcel they are inside; GPS location, temperature, humidity, tilt, shock, light and pressure. Trackers pick up their location via Global Position System and communicate back to Hanhaa's server via GSM using the Hanhaa Mobile Network.

As part of the service ParceLive trackers are leased and returned to Hanhaa after each use. Therefore, each tracker has and holds no value to the customer or receiver of the parcel containing the tracker. As trackers are returned via freepost after each use to Hanhaa Limited they do not remain and are not sold in their destination country.

ParceLive trackers were manufactured in the United Kingdom and Italy in 2017 and meet the following harmonised standards and technical specifications in conformity with EU legislation: Article 3.2. (Radio) Article 3.1.b. (EMC) Article 3.1.a (Safety). ParceLive trackers contain one Lithium battery for which conformity and certification can be found at ParceLive.com/compliance.

ParceLive trackers are owned in whole by Hanhaa Limited registered at The Dock, Tobacco Quay, Wapping Lane, London, E1W 2SF, United Kingdom. Trackers are stored, distributed from and returned to Arvato Bertelsmann, Maalbeekweg 57, 1930 Zaventem, Belgium.
